WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.  
PCT/US04/09994

Box No. V Reasoned statement under Rule 43 *bis*.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)

Claims 1-37 YES

Claims NONE NO

Inventive step (IS)

Claims 1-37 YES

Claims NONE NO

Industrial applicability (IA)

Claims 1-37 YES

Claims NONE NO

2. Citations and explanations:

Claims 1-37 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest an immersion lithography system that includes a porous material positioned adjacent a gap between an optical element and a work piece, wherein the porous material includes a plurality of passages for collecting immersion fluid exiting the gap. Further, the prior art does not teach a transport region positioned adjacent the gap, wherein the transport region has a first and second surface positioned near the work piece, and a plurality of passages that extend between the surfaces for collecting immersion fluid exiting the gap.

Claims 1-37 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
